

# 5 HOSPITAL IMAGES NOT TO MISS

## 5 HOSPITAL IMAGES NOT TO MISS

In the excitement of preparing for your baby's arrival there are so many things to do! Between decorating the nursery, shopping for clothes and all of baby's needs, doctors appointments, birth and breastfeeding classes, packing for the hospital and more, it's easy to forget things along the way. One of the things I regret the most is some of the pictures we didn't take at the hospital. Yes of course we remembered to take the first pictures of baby, getting measured and weighed, his first bath, etc. but there were so many moments that were missed too. So we've summed up a few not-to-be-missed moments that you will surely treasure forever. Along with an offer for a complimentary Fresh 48 session with a booked newborn session.

### 1. FIRST GLANCES

Those loving first looks at baby are priceless. When you first meet your baby you won't be able to take your eyes off of her. Make sure you capture that look, it's pure magic.

### 2. DON'T FORGET DAD

When baby is born Dad is usually the one running around taking all of the photos. Make sure someone takes some images of dad loving on baby.

### 3. MEETING SIBLINGS

There's nothing sweeter than siblings meeting baby for the first time. When all is fresh and new and exciting make sure to capture those first touches and tender moments. Soon enough they'll be back to their old silly selves fighting for your attention :)

### 4. TINY TOES

Who doesn't obsess over teeny tiny baby toes? Make sure to photograph them as much as you can. At least if you can stop kissing them!

### 5. FIRST FAMILY PHOTO

Take a minute and grab your first family photo. Don't worry if everyone isn't looking at the camera. The tender and sweet, natural moments are often the most memorable anyway.

### DETAILS, DETAILS!

The newborn details are so unique. The little tufts of hair, baby's tiny fist, pouty lips and fingers in her mouth are all details you don't want to miss. First yawns, funny faces, and stretches are all newborn traits that are so fleeting and will be soon be just a memory.

Make sure to capture the details in your hospital room too. Get a shot of the name plaque in the bassinet, gifts and flowers that friends and family sent, the hospital swaddle blanket and beanie and even baby's pacifier. All are details that will soon be forgotten.

## fresh 48

Book a Petite or Grand newborn session and receive a complimentary Fresh 48 session w/5 images
